Islamabad Branch Council 2016-18

Conference on Companies Act, 2017

With technological advancements and developments in corporate regulatory framework across the globe in past few decades, the complete revamping of the old Companies Ordinance was long overdue and it was much needed to bring the law in conformity with international best practices in regulating the corporate sector.

The enactment of the Companies Act, 2017, is one of the most significant legal reforms in the country. It is aimed at bringing the company law on a par with global standards. The Act has introduced significant changes to the company law. It is the longest and one of the most exhaustive pieces of legislation ever approved by Pakistani parliament. It was very important to hold a comprehensive workshop on the newly enacted act in order to create awareness of its technical aspects among the members, students and other stakeholders of the economy.

Islamabad Branch Council proudly invites you to the Conference on Companies Act, 2017. The purpose of the Conference is to disseminate extensive insight on the Companies Act, 2017 to the various stakeholders of the economy.
