

# Seminar on **AI in Finance** Challenges and Opportunities

CPD committee of Faisalabad Branch Council is pleased to announce seminar on AI in Finance: Challenges and Opportunities

AI is revolutionizing the finance industry by enabling unprecedented levels of efficiency, accuracy, and innovation. Its ability to process and analyze vast amounts of data in real-time provides deeper insights into market trends, customer behaviors, and risk factors, leading to more informed decision-making. In this seminar, we will explore how artificial intelligence is transforming the financial industry, examining both the promising opportunities and the significant challenges it brings.

## Resource Person:

**Dr. Haseeb Ahmad**  
Assistant Professor  
National Textile University, Faisalabad

Dr. Haseeb Ahmad is an Assistant Professor in the Department of Computer Science at National Textile University, Faisalabad, Pakistan. He holds a Ph.D. in Computer Science with a specialization in Data Science and Machine Learning. Beyond his commitment to teaching and research excellence, he is also providing Data Science consultancy services to various national and multinational organizations.
