

Nationwide Awareness Session on Syllabus 2016 and Faculty Roll of Honour

Science of Management Accounting for Economic Growth

The Syllabus 2016 has been launched with utmost care in which hundreds of hours of faculty members and management were spent in incorporating knowledge and skills that are of best value for Management Accountants. The entire process took more than 10 months of studious exercise including seeking feedback from Institute's members in teaching, practice and corporate sector; Universities specially their management sciences and finance / accounting faculties; and industry, trade and businesses. The development includes extensive comparison of courses and syllabuses of globally accepted contents and their customization in the Pakistani environment. The new Syllabus has 22 courses including two open book assessments and a capstone project.

The salient features of the Syllabus 2016 are as follows:

- Compliance to education guidelines of IFAC;
- Introduction of levels which is in line with international benchmarks instead of semesters or stages;
- Introduction of 152 practical training hours;
- As per international practices, computer based examination for fundamental level;
- Globally accepted formats for coding;
- Market understandable certificates nomenclature depicting true knowledge levels such as fundamental, graduation, professional and chartered;
- Numbers of papers are at par to regional accounting bodies and same as of last syllabus;
- Assessment in different entry schemes ensuring appropriate mapping;
- Balanced contents having appropriate coverage of management accounting, finance, audit, laws and accounting standards etc;
- Coverage of emerging areas of expertise such as risk management, corporate planning and controlling, corporate governance, professional ethics and cost audit;
- Open book assessments for two courses so as to ensure comprehensive coverage on case study format; and
- Launch of capstone project to build research and development abilities.
