

Two Days Workshop on BusinessExcel

In the today's challenging business environment, one of the most sought after skill for Business and Finance Professionals is their ability to quickly analyze, summarize and report on the available data. By using Excel Reporter methodology, we design all frequently used reports only once In Microsoft Excel and Then; when required, we don't have to work on these reports again and it will be a matter of click next time. This methodology saves lot of time and helps a lot in improving reporting performance. Keeping in view its importance, CPD of FBC-2017 is organizing a workshop to enhance the professionals' knowledge to design Excel Reporter. This training realizes the advantages of using a spreadsheet to its full potential. The course is entirely 'hands on', so the attendees will get practice in using Microsoft Advanced Excel.

OBJECTIVE OF THE WORKSHOP

This practice course will help to take your analytical skills to the next level of accuracy. Intensive and hands-on, the course is designed to equip you with step-by-step guides for effectively structuring and managing an accurate financial model
